#### PART 3290—MANILA (ABACA) AND AGAVE FIBERS AND CORDAGE

[Conservation Order M-84, as Amended  
July 7, 1947]

##### MANILA (ABACA) AND AGAVE FIBER AND CORDAGE

Findings under sec. 4 (a) of the Administrative Procedure Act. In connection with the issuance of the amendment of Conservation Order M-84, on July 7, 1947, as incorporated in the following order, and the revocation of Direction 1 and Direction 2 to Conservation Order M-84, at the same time, the Office of Materials Distribution, pursuant to sec. 4 (a) of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 60 Stat. 237) for good cause, finds that compliance with the notice, public rule-making procedures and effective date requirements of the said act is impracticable and unnecessary. The reasons therefor are that (a) processing quotas for binder and baler twine and agave rope would have to be issued immediately, unless those provisions of paragraph (c) providing for such processing quotas were deleted at once, and it is considered appropriate by the Office of Materials Distribution to eliminate such processing quotas for the future; (b) processing quotas under paragraph (c) of the order for Manila (abaca) fiber, and inventory restrictions for such fiber, have already been suspended by Direction 2 to Order M-84, issued May 2, 1947; (c) the amendment of the order has been discussed with members of the Cordage Industry Advisory Committee, including the Binder Twine Subcommittee and their recommendations have been considered; and (d) the time intervening between the

date of applicability of said sec. 4 (a) of the Administrative Procedure Act, and the date when the said amendment and revocations must become effective, in order to avoid undue delay in the changes thereby made, and to avoid the issuance of the further processing quotas referred to above, is insufficient for such compliance. Therefore, the Office of Materials Distribution hereby takes the action of amending Conservation Order M-84 to read as set forth below and of revoking Direction 1 and Direction 2 to that order, as set forth in the revocation of those directions.

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of manila and agave and products made from them for defense for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3290.221 *Conservation Order M-84—*  
(a) *Restrictions on sales, deliveries, receipts, and use of certain cordage products—*(1) *Rope and twine (except binder and baler twine).* No processor or dealer may sell, deliver, or accept delivery of new rope or new twine produced in the United States in whole or in part from Manila or agave, or from yarn made from such fibers, for end uses for which the rope or twine may not be manufactured under this order. However, this rule shall not prohibit the sale, delivery, or acceptance of rope made from agave fiber put into process before January 16, 1947 for any end use, or of those twines listed in Schedule B made from agave fiber put into process before March 25, 1947.

(2) *Binder and baler twine.* No person may sell or deliver new binder or new baler twine (wherever produced) if he knows or has reason to believe that:

(i) The binder twine will not be used with mechanical harvesting equipment or in the growing, harvesting, or delivering of agricultural crops, or that the binder twine will be converted into rope or any other product; or

(ii) The baler twine will not be used in a self-tying machine for baling hay, straw, or other fodder crops.

(3) No person may use new binder or new baler twine (wherever produced) to manufacture rope for sale.

(b) *Purposes for which Manila or agave fiber or yarn may not be used—*

(1) *Manila.* No processor may put into process any spinnable Manila fiber, or yarn made from such fiber (wherever produced) except to make rope for any end use, or twines permitted in Schedule B of this order, or binder and baler twine. Nonspinnable Manila fiber may be used for any purpose.

(2) *Agave.* No processor may put into process any agave fiber, or yarn made from such fiber (wherever produced), except to make rope for any end use, and binder and baler twine.

Except as specifically authorized or directed in writing by the Office of Materials Distribution, no processor may

manufacture any binder or baler twine from agave fiber, unless made in accordance with the following specifications: The binder twine must measure 500 to 650 feet to the pound with a plus or minus tolerance of five per cent; and must contain a lubricant of at least ten per cent of the total weight of the twine, and an insect repellent. The baler twine must measure 200 to 300 feet to the pound with a plus or minus tolerance of five per cent; must contain a lubricant of at least ten per cent of the total weight of the twine, and an insect and rodent repellent.

(c) Quantities of manila and agave fibers which may be used. This order, as amended July 7, 1947, does not limit the quantities of the products permitted under paragraph (b) above, which any processor may produce. All processing quotas and all directions and authorizations for the use of extenders issued under this paragraph (c) are therefore hereby revoked.

(d) Inventory restrictions on Manila and agave cordage products.

(1) [Deleted July 7, 1947.]

(2) [Deleted July 7, 1947.]

(3) [Deleted July 7, 1947.]

(4) Inventories of rope and twines. A person buying new rope or new twines made from Manila or agave fiber, whether for use or resale (including a person buying for export) may not accept delivery of any of such materials if his inventory of that material is, or will be, more than a practicable minimum working inventory reasonably necessary to meet his own deliveries or to supply his services on the basis of his current or scheduled method and rate of operation.

(5) Restriction on ordering more than needed. A person may not place any order for delivery of any material on earlier dates or in larger amounts than he would be permitted to receive under this order or any other applicable orders or regulations of OMD. Orders aggregating more than he is allowed to receive may not be placed with different suppliers even though he intends to cancel one or more of them before delivery.

(6) Adjusting outstanding orders when requirements change. If because of a change in operations, slowing or stoppage of production, delayed delivery by a supplier, or any other change in requirements, a person who has ordered material for future delivery would, if he accepted delivery on the date specified, exceed the limits prescribed by this order, he must promptly adjust his outstanding orders, and if necessary, postpone or cancel them.

(e) Distribution of binder twine held by Reconstruction Finance Corporation. The Office of Materials Distribution may from time to time specifically direct the time and quantities in which deliveries of binder twine held by the Reconstruction Finance Corporation shall be made or withheld, and the purposes for which such deliveries may be made.

(f) Allocation of agave fiber held by RFC. (1) The Office of Materials Distribution may from time to time allocate to processors such supplies of agave fiber as are held by the Reconstruction Finance Corporation, and specifically direct the time, manner, and quantities in which deliveries to processors shall be made or withheld.

(2) It will be the general policy of the Office of Materials Distribution to allocate such fiber with the primary objective of assuring, insofar as possible with the limited quantities of agave fiber available, the production of binder and baler twine in the quantities and by the time required for the agricultural crop seasons, but with due regard to the requirements for rope, as well as the expanding need for baler twine. Within the aggregate amounts of fiber to be allocated for binder and baler twine, and for rope, allocations will in general be made in proportion to the base period operations of individual processors, subject to any exceptional conditions (such as any substantial increase or decrease in facilities) which may justify a different proportion. The allocations made according to base period operations will be without regard to any quantities of Manila (abaca) or agave fiber which processors may obtain from other sources. The base periods to be used are explained below.

(3) The total allocations of agave fiber for use in making binder and baler twine will in general be pro-rated among processors in proportion to their respective production of binder and baler twine during the period August 1, 1946 through July 31, 1947.

(4) The total allocations of agave fiber for use in making rope will in general be pro-rated among processors in proportion to their respective average monthly sales of agave (sisal) cordage during the period January 1, 1939 through December 31, 1941. The aggregate allocations of fiber will be limited, and be determined from the requirements for rope.

(5) In those cases where the allocation to a particular processor would be less than a freight carload, one carload will be considered a minimum quantity and be allocated whenever feasible.

(6) A manufacturer who was not in the hard fiber cordage business during the periods referred to in paragraph (f) (3) or (f) (4) above may apply to the Office of Materials Distribution for an allocation of agave fiber. The application should be filed by letter stating the quantity of fiber desired to be processed for each permitted product, and should include a statement of the facilities

available for the manufacture of cordage products permitted under this order, the maximum poundage of fiber which can be processed with his facilities on the basis of a 40-hour week, and the minimum poundage of fiber needed for economical operation during a 3-month period. Applications from new manufacturers will be considered on an equitable basis, in view of the allocations issued to other manufacturers, and other pertinent circumstances.

(7) Since the only fiber to be allocated under this paragraph (f) will be that held by RFC, the amounts allocated will be limited; and such additional amounts of agave fiber (or of manila fiber) as a processor may wish to obtain for making permitted products must be obtained from other sources without allocations.

(8) Agave fiber allocated for use in making binder or baler twine may be used only for that purpose, and fiber allocated for making rope may be used only for making rope, unless otherwise authorized in writing by the Office of Materials Distribution. However, No. 1 agave tow which has been allocated under this order may be used or disposed of for any purpose, unrestricted by this order or by AR-1.

(g) End use information. No person may sell or deliver any product controlled by this order to any person who he knows or has reason to believe will use the product in a manner which this order does not permit. He should satisfy himself as to this in some reasonable manner before delivering. He may, but need not, require a statement in writing showing the specific purpose or use for which the item is ordered.

(h) Restrictions on the use of damaged material. Any processor or dealer who has in his possession damaged or defective manila or agave fiber or cordage, may report by letter the extent of the damage and state to the Office of Materials Distribution the percentage not suitable for the manufacture of products or for use permitted by this order. He may then upon receipt of acknowledgment, without objection from the Office of Materials Distribution, use or dispose of any portion unsuitable for the manufacture of products permitted by this order, free from its restrictions.

(i) Reports. (1) Processors of manila and agave fiber shall report monthly on OMD-2901, sections 1 and 2.

(2) Every person, except the Reconstruction Finance Corporation, who imports or purchases for import any spinnable Manila fiber, or yarn made from Manila fiber, or any spinnable agave fiber, or yarn made from agave fiber, shall report in writing (by letter or other written communication) to the Office of Materials Distribution, Washington 25, D. C., Ref: M-84, stating the information required by the following instructions:

(i) Send this report to the above address not later than the 10th of each

month to cover the preceding month. Keep one copy for your files. Date the report, state calendar month for which filed, name of your company, and its address (street, city, zone, and state)

(ii) As Item No. 1, list Manila (Abaca) Fiber (in bales) as Item No. 2, list Manila Yarn (in thousands of pounds); as Item No. 3, list Agave (Sisal Fiber (in bales) and as Item No. 4, list Agave (Sisal) yarn (in thousands of pounds).

(iii) For each item, show separately the monthly shipments to you from any foreign countries during the calendar month covered by the report, and your inventory of each item as of the end of the month, for United States consumption. List separately that which is afloat to the United States, and that which is in the United States. For the purpose of this report (although not under paragraph (d) above) inventory includes fiber and yarn afloat, and on hand in the continental United States, where title has not been transferred to some other person (or in the case of an importer who is also a processor, all fiber and yarn afloat, and all within the continental U. S. except that held in this country for his own use). Report in units of bales on fiber, and in thousands of pounds on yarn.

(iv) To avoid partial duplication in reports by processors and importers, if a quantity of fiber in the United States has been sold and the sales invoice for it sent the purchaser during the calendar month, the seller should exclude it from his report, even though physical transfer has not been completed. Similarly, the purchaser should include in his report fiber invoiced to him during the month, even though still in transit to him at the end of the month.

(j) *Imports.* The provisions of this paragraph (j) replace those in General Imports Order M-63, insofar as that order has applied to materials subject to this paragraph. However, authorizations for the importation of such materials issued under Order M-63 shall continue to have the same force and effect as if issued under this Order M-84.

(1) *Definitions.* For the purposes of this paragraph (j)

(i) "Fibers subject to import control under this order" means any of the following materials: agave fibers, unmanufactured (except flume tow and bagasse waste) cantala (except maguey) unmanufactured, and sisal and henequen, unmanufactured (except agave tow No. 1 and No. 2 grades, flume tow and bagasse waste)

(ii) "Owner" of any material means any person who has any property interest in such material except a person whose interest is held solely as security for the payment of money.

(iii) "Consignee" means the person to whom a material is consigned at the time of importation.

(iv) "Import" means to transport in any manner into the continental United States from any foreign country or from any territory or possession of the United States. It includes shipments into a free port, free zone, or bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental

United States and shipments into the continental United States for processing or manufacture in bond for exportation. It does not include shipments in transit in bond through the continental United States without processing or manufacture, to Canada, Mexico or any other foreign country, or shipments through a free port or free zones to a foreign country without processing or manufacture.

(v) Material shall be deemed "in transit" if it is afloat, if an on board ocean bill of lading has actually been issued with respect to it, or if it has actually been delivered to and accepted by a rail, truck, or air carrier, for transportation to a point within the continental United States.

(2) *Restrictions on imports.*—(i) *General restriction.* No person, except as authorized in writing by the Office of Materials Distribution shall purchase for import, import, offer to purchase for import, receive, or offer to receive on consignment for import, or make any contract or other arrangement for the importing of, any fibers subject to import control under this order. The foregoing restrictions shall apply to the importation of any fibers subject to import control under this order regardless of the existence of any contract or other arrangement for the importation of such material.

(ii) *Authorization by Office of Materials Distribution.* Any person desiring such authorization, whether owner, purchaser, seller, or consignee of the material to be imported, or agent of any of them, shall make application therefor in duplicate on Form OMD-1041 addressed to the Office of Materials Distribution Ref: M-84, Washington 25, D. C. Unless otherwise expressly permitted, such authorization shall apply only to the particular material and shipment mentioned therein and to the persons and their agents concerned with such shipment; it shall not be assignable or transferable either in whole or in part.

(iii) *Restrictions on financing of imports.* No bank or other person shall participate, by financing or otherwise, in any arrangement which such bank or person knows or has reason to know involves the importation of any fibers subject to import control under this order, unless such bank or person either has received a copy of the authorization issued by the Office of Materials Distribution under the provisions of paragraph (j) (2) (ii) or is satisfied from known facts that the proposed transaction comes within the exceptions set forth in paragraph (j) (2) (iv).

(iv) *Exceptions.* Unless otherwise directed by the Office of Materials Distribution, the restrictions set forth in this paragraph (j) (2) shall not apply.

(a) To the Reconstruction Finance Corporation, U. S. Commercial Company, Commodity Credit Corporation, or any other United States governmental department, agency, or corporation, or any agent acting for any such department, agency or corporation; or

(b) To any material of which any United States governmental department, agency, or corporation is the owner at

the time of importation, or to any material which the owner at the time of importation had purchased or otherwise acquired from any United States governmental department, agency, or corporation; or

(c) To any material consigned or imported as a sample where the value of each consignment or shipment is less than \$25.00.

(3) *Reports.*—(i) *Reports on customs entry.* No fibers subject to import control under this order, including materials imported by or for the account of the Reconstruction Finance Corporation, U. S. Commercial Company, Commodity Credit Corporation or any other United States governmental department, agency or corporations, shall be entered through the United States Bureau of Customs for any purpose, unless the person making the entry shall file with the entry Form OMD-1040 in duplicate. The filing of such form a second time shall not be required upon any subsequent entry of such material through the United States Bureau of Customs for any purpose; nor shall the filing of such form be required upon the withdrawal of any material from bonded custody of the United States Bureau of Customs, regardless of the date when such material was first transported into the continental United States. Both copies of such form shall be transmitted by the Collector of Customs to the Office of Materials Distribution, Ref. M-84, Washington 25, D. C.

(ii) *Other reports.* All persons having any interest in, or taking any action with respect to any fibers subject to import control under this order, whether as owner, agent, consignee, or otherwise, shall file such other reports as may be required from time to time by the Office of Materials Distribution.

(k) *Definitions.* In this order:

(1) "Manila" means fiber which is commonly known in the trade by this term and also known as Abaca or Manila Hemp wherever grown (either stripped or decorticated) but does not mean processor's mill waste or bagasse. "Spinnable Manila" means Manila which is spinnable over machinery but does not mean the fiber grades of O, T, Y, and W or equivalent as established by the Insular Government of the Philippine Islands.

(2) "Agave" means fiber spinnable over machinery of the species agave sisalana, agave fourcroydes, and agave cantala, of all grades and quantities including tow and fiber under 20" in length, commonly known in the trade as sisal, henequen, and cantala, and sometimes preceded by an adjective designating the country or district of origin, but does not include processor's mill waste, bagasse, maguey or agave tow No. 1 and 2 grades.

(3) "Rope" means any rope or cable, treated or untreated, composed of three or more strands each strand composed of two or more yarns, and not less than 10 percent cordage lubricant (excluding tent, awning and lariat rope) but does not include strings and twines of whatever construction which are commonly

used for tying, sewing, baling or other commercial packaging use.

(4) "Twine" means any single or plied yarn or roving, including marlin, for use as a tying material, for sewing or for any similar purpose, but does not include any product falling within the definition of "rope" "binder twine" or "baler twine."

(5) "Binder twine" means a single yarn twine usually containing agave, but sometimes containing manila, istle, jute, coir, hemp, cotton or paper, suitable for use in a harvesting machine and of the type customarily heretofore manufactured. It is also known as binding twine.

(6) "Baler twine" means a single yarn usually made of agave fiber and used in a self-tying machine for baling hay, straw or other fodder crops.

(7) "Processor" means any person (other than a United States Government agency) who spins, twists or otherwise uses any fiber or yarn in the manufacture of rope or twine, or who uses manila or agave fiber in the manufacture of any other product.

(l) *Appeals.* Any appeal from the provisions of this order should be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(m) *Applicability of regulations.* Except as specifically otherwise provided this order and all transactions affected thereby are subject to all applicable provisions of the regulations of the Office of Materials Distribution as amended from time to time.

(n) *Violations.* Any person who willfully violates any provision of this order, or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the Office of Materials Distribution.

(o) *Communications.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to the Office of Materials Distribution, Washington 25, D. C., Ref. M-84.

## TITLE 49—TRANSPORTATION AND RAILROADS

### Chapter I—Interstate Commerce Commission

[Corr. S. O. 760]

#### PART 97—ROUTING

##### REROUTING OF TRAFFIC

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 27th day of June A. D. 1947.

It appearing, that floods have washed out the tracks on the Des Moines-Osceola Branch of the Chicago, Burlington & Quincy Railroad Company at 43 places between Osceola and Burch, Iowa; that the complete restoration of service on the eleven (11) mile segment of track between Osceola and New Virginia, Iowa will be made shortly but that due to emergency work elsewhere the restoration of the forty-two (42) mile segment of track between New Virginia and Burch, Iowa, will not be completed for some time; the Commission is of opinion that the Chicago, Burlington & Quincy Railroad Company is unable to transport the traffic offered it to, from or between points on the Des Moines-Osceola Branch so as to properly serve the public and that handling, routing and movement of this carrier's traffic (including trains) over the Chicago Great Western Railway Company's track (over a temporary track connecting the former's and latter's tracks) between Afton Junction and Burch, Iowa, will best promote the service in the interest of the public and the commerce of the people. It is ordered, that:

§ 97.760 *Rerouting.* (a) The Chicago, Burlington & Quincy Railroad

Company shall handle, route and move its traffic (including trains) originating or terminating at points on the Des Moines-Osceola Branch between Burch and Des Moines, Iowa inclusive, over the Chicago Great Western Railway Company's track (over a temporary track connecting the former's and latter's tracks) between Afton Junction and Burch, Iowa.

(b) *Compensation.* The handling, routing and movement of traffic ordered and described in paragraph (a) of this section shall be upon such terms as between the carriers as they may agree upon or in the event of their disagreement as the Commission may, after subsequent hearing find to be just and reasonable.

(c) *Application.* The provisions of this order shall apply to intrastate and foreign traffic as well as interstate traffic.

(d) *Rates to be applied.* Inasmuch as such disregard of routing is deemed to be due to carrier's disability, the rates applicable to traffic so forwarded by

routes other than those designated by shippers, or by carriers shall be the rates which were applicable at date of shipment over the routes so designated.

(e) *Division of rates.* In executing the orders and directions of the Commission provided for in this section, common carriers affected shall proceed, even though no division agreements are in effect, over the routes authorized; divisions shall be, during the time this section remains in force, voluntarily agreed upon by and between said carriers; and upon failure of said carriers to so agree, the divisions shall be hereinafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act. If division agreements now exist on the traffic affected, over the routes herein authorized they shall not be changed or affected by this section.

(f) *Effective date.* The provisions of this section shall become effective at 6:00 p. m., June 27, 1947.

(g) *Expiration date.* The provisions of this section shall expire at 6:00 p. m.,

August 31, 1947, unless otherwise modified, changed, suspended, or annulled by order of the Commission.

It is further ordered, That copies of this order and direction shall be served upon the Iowa State railroad regulatory body, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and notice of this order shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(40 Stat. 101, secs. 402, 418, 41 Stat. 476, 485, secs. 4, 10, 54 Stat. 901, 912; 49 U. S. C. 1 (10)-(17), 15 (4))

By the Commission, Division 3.

Secretary.

## PROPOSED RULE MAKING

### CIVIL AERONAUTICS BOARD

[14 CFR, Part 20]

#### GLIDER FLIGHT TIME

##### NOTICE OF PROPOSED RULE MAKING

JULY 2, 1947.

The use of airplane tow in the training of glider pilots is becoming more and more extensive. With this type of training it is more equitable to log the time of flight in terms of hours and minutes rather than in terms of number of flights.

The purpose of this section is to provide a more equitable means of logging glider time by providing that an applicant for a glider rating can log glider time either in terms of number of flights or in terms of hours and minutes.

Therefore, the following amendments to Part 20 of the Civil Air Regulations are proposed.

1. By amending § 20.25 (b) to read as follows:

\* § 20.25 *Aeronautical experience.*  
\* \* \*

(b) *Glider.* Applicant for a glider rating shall have had at least 100 gliding flights or 10 hours of glider flight time, including at least 50 take-offs and landings. As part of the foregoing requirement, at least 25 flights must have included a 360° turn.

2. By amending § 20.35 (b) to read as follows:

\* § 20.35. *Aeronautical experience.*  
\* \* \*

(b) *Glider.* Applicant shall have had at least 250 gliding flights or 25 hours of glider flight time including at least 125 take-offs and landings. At least 5 flights must have been made within 60 days preceding the date of application. Applicant also shall have had at least one hour of flight instruction in recovery from stalls and spins. An applicant who is the holder of a private or commercial rating for powered aircraft who has had not less than 100 gliding flights or 10 hours of glider flight time including at least 50 take-offs and landings, will be deemed

to have met the requirements of this section.

These regulations are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

Pursuant to section 4 (a) of the Administrative Procedure Act, the Safety Bureau of the Civil Aeronautics Board hereby gives notice that the Bureau will recommend to the Board that these amendments be adopted with an effective date 30 days after adoption. It is the desire of the Bureau that those interested submit written comments or suggestions regarding the proposed amendment, addressed to the Safety Bureau, Civil Aeronautics Board, Washington 25, D. C., for receipt within 30 days from date of this public notice.
